Product Description:
Milkstone remover.

First-Aid Measures

After inhalation: Supply fresh air. If required, provide artificial respiration. Consult doctor if symptoms persist. In case of unconsciousness place patient stably in side position for transportation.

After skin contact: Immediately wash with water and soap and rinse thoroughly. Immediate medical treatment is necessary. Failure to treat burns can prevent wounds from healing.

After eye contact: Hold eyelids apart and flush eyes with plenty of water for at least 15 minutes. Get medical attention. If easy to do so, remove contact lenses if worn.

After swallowing: Rinse out mouth and then drink plenty of water. Do not induce vomiting without medical advice. If vomiting does occur, repeat fluid administration Call a doctor immediately.

Protective Equipment:

Breathing equipment: Not required.

Protection of hands: Protective gloves The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture. Select glove material based on penetration times, rates of diffusion and degradation.

Eye protection: Tightly sealed goggles

Body protection: Protective work clothing
